ETHERMA°
EFFICIENT. ELECTRIC. HEATING.

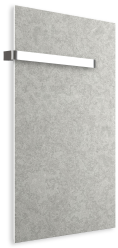
PRODUCT DATASHEET

Type: LAVABATH2-S-400-G
Art. Nr.: 40916

0 912010 541068

Short description

Bathroom infrared heating panel, stone grey, 130x50cm, 400W, 230V



Product Description

The LAVA BATH 2.0 is the perfect heater for your bathroom. Strong surface material made of ESG safety glass, corian or fine stone, as well as 2 temperature limiters in all panels, ensure safety when in use at all times. The innovative technology makes the surfaces a very good radiation emitter. In conjunction with the even heat distribution on the surface, the optimally insulated back surface guarantees high radiation efficiency and thus maximum infrared heat radiation to the front of the room; once switched on, depending on the surface, the panel is heated to max. 70 °C and provides comforting warmth within a couple of moments. And, thanks to its included towel holder, it also ensures cozy, warm towels. The frame-less design is modern. There are four surfaces (STEEL/GLASS/STONE/CORIAN) and up to five outputs to choose from - whatever you'd like. In addition, up to two additional towel rails can be attached to the unit. The practical Plug & Play box on the back allows easy installation of a control, whether directly on the unit, by radio or by means of a wired controller. Incl. a chrome-plated towel rail, open on one side, on/off switch, surface temperature: max. 70 °C, vertical wall mount, protection rating: IP X4, surfaces: sheet steel, 6 mm toughened safety glass, 6 mm fine stone or 12 mm corian, plug connection cable: 1 m, quality marking: CE.

ETIM characteristics

Type of IR radiation	IR-C	**Power consumption**	400	Watt
Mounting method	Surface mounting	**Supply voltage**	230|230	Volt
Mounting direction	Vertical	**Frequency supply voltage**	50|50	Hertz
Degree of protection (IP)	IPX4	**Max. surface temperature**	70	Degrees celsius
Colour	Grey	**Height**	1300	Millimetre
With imprint	✖	**Width**	500	Millimetre
With room temperature controller	✖	**Depth**	61	Millimetre
With mounting material	✔	**RAL-number**	0	
With framework	✖			
Material framework	Other			
Colour framework	Other			
Surface treatment	Other			
Surface structure front-side panel	Smooth			
With lighting cove	✖			
Dimmable	✖			
Light outlet	Direct
