

Product name

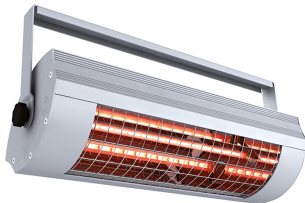

SM-2000-T

Item number

9100101

Manufacturer

SOLAMAGIC

Product description

SOLAMAGIC ECO+ 2000W professional infrared heater Titanium

SOLAMAGIC ECO+ infrared heaters are characterized by a simple installation and a highly efficient reflector (ECO+). The casing is made of high quality aluminum. The device is equipped with a HeLeN gold tube which, in addition to high efficiency, achieves a very long service life (min. 5000 operating hours). Especially in outdoor areas, shortwave infrared heaters allow a very flexible application and a constant, pleasant heat zone. Due to its wavelength, the heat penetrates air particularly efficiently and guarantees high operating cost savings compared to gas and quartz radiators. Colors: white, titanium, nano-anthracite, special colors on request, practical mounting accessories, high efficiency, no heating phase, can be dimmed via external control, power: 1400 or 2000 W, dimensions: 483x144x152 or 483x176x230 mm, plug cable 1.8 m, protection class: IP 24, test mark: CE compliant.

Technische Details

Model	Ceiling-/wall emitter	Voltage	230 230 Volt
Power step OFF	No	Number of heating levels	1
Mounting over cradle	No	Min. heating power	2000 Watt
Degree of protection (IP)	IP24	Max. heating power	2000 Watt
		Height	230 Millimetre
		Width	483 Millimetre
		Depth	176 Millimetre
