

Product name

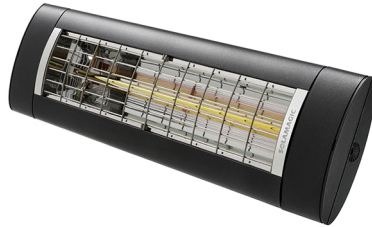

SM-S3-2500-NA

Item number

9300111

Manufacturer

SOLAMAGIC

Product description

SOLAMAGIC S3 infrared heater, 2.5kW, nano-anthracite

The new SOLAMAGIC S3 is a strong outdoor version for your outdoor space. The device is made of high quality aluminium and equipped with a Solastar-G2 heating tube, which combines a more pleasant, lighter colour with better thermal performance. Especially in outdoor areas, infrared radiant heaters allow very flexible applications and create constant, pleasant heat zones on balconies, terraces or even in outdoor catering areas. Due to a short wavelength, infrared heat radiation penetrates air particularly efficiently, is not exposed to wind drifts and guarantees high operating cost savings compared to gas radiators. Colours: white, titanium, nano-anthracite, special colours on request, practical mounting accessories, high efficiency, no heating phase, can be dimmed via optional radio or Bluetooth dimming module, power: 2500 W, protection rating: IP 44, protection rating: I, dimensions: 750x200x92 mm, certification mark: TÜV Nord, CE marking, weight: 3,5 kg, connection cable 50 cm with Schuko plug and Hirschmann coupling (loose enclosed), voltage: 230 V.

Technical Details

Model	Ceiling-/wall emitter	Voltage	230 230 Volt
Mounting method	Surface mounting	Number of heating levels	1
Power step OFF	✗	Min. heating power	2500 Watt
Mounting over cradle	✗	Max. heating power	2500 Watt
Degree of protection (IP)	IP44	Min. mounting height	1.8 Metre
Colour	Grey	Max. mounting height	2.5 Metre
Compatible with Apple HomeKit	✗	Height	231 Millimetre
Compatible with Google Assistant	✗	Width	750 Millimetre
Compatible with Amazon Alexa	✗	Depth	200 Millimetre
IFTTT support available	✗	RAL-number	7016
