HNB-U: Sealing ring 90mm

Commercial information

The Henco Super Size range refers to the Henco multilayer pipe and the Henco fittings in diameters 75 - 90 - 110 mm,
with reducing couplings for diameters 32 - 40 - 50 - 63 mm. The fittings assure a complete multilayer piping system with multiple variations for distribution and riser systems. The numerous combinations and the revolutionary connection technique make this system extremely flexible. The Henco Super Size fittings are made of the Polyvinylidene Fluoride (PVDF), a high quality synthetic material. The PVDF
offers the user a unique combination of properties:
- corrosion resistant
- excellent mechanical strength and hardness
- resistant to extreme temperatures: from -40°C to +150°C
- approved for contact with water and food
- a maximum working pressure up till 10 bar and amaximum working temperature up till 95°C

All these favourable properties make this multilayer system suitable for numerous applications such as drinking water installations, heating installations and installations in the chemical and food industry. The Henco Super Size fittings are just like all other Henco fittings designed with a leak before press detection.

Certificates

Applications

Potable water, Heating, Compressed air, Sanitary

Solutions

Building installations, Industry, Utility

Technical characteristics

Material	Plastic	Outer diameter	90 Millimetre
Ring model	Massive	Thickness	6.5 Millimetre
With washer	✔	Suitable for thread size (metric)	0
		Suitable for thread size PG	0
