

CU-REPEAT: Repeater

Commercial information

Certificates

Applications

Heating, Cooling, Underfloor Heating

Solutions

Underfloor heating, Building installations, Industry, Utility

Technical characteristics

Scope of application	Room	Number of measuring points	0
With mounting material	✓	CO2 measuring range	0 0 parts per million
Suitable for wall mounting	✓	VOC measuring range	0 0 parts per million
Suitable for ceiling mounting	✓	Temperature measuring range	0 0 Degrees celsius
Suitable for duct mounting	✓	Measuring range relative air humidity	0 0 Percentage
Suitable for tube mounting	✗	Measuring range absolute air humidity	0 0 Gram per cubic metre
Suitable for air	✓	Enthalpy measuring range	0 0 Kilojoule per kilogram
Suitable for liquids	✗	Dewpoint measuring range	0 0 Percentage
Suitable for gases	✗	Particulate matter measuring range (PM)	0 0 Microgram per cubic metre
With housing	✓	Number of measuring ranges	0
Cover attachment	Snapped on		
Sensor element inside housing	✓		
Sensor element outside housing	✗		
Fixed cable to sensor	✓		
Material element	Other		
Active temperature measurement	✗		
Passive temperature measurement	✗		
Average temperature measuring	✗		
Measurement of CO2	✗		
Measurement of VOC	✗		
Measurement of relative air humidity	✗		
Measurement of absolute air humidity	✗		
Enthalpy measurement	✗		
Measurement of dewpoint	✗		
Particulate matter measurement (PM)	✗		
Wireless	✗		
With display	✗		
Explosion-proof	✗		
Housing colour	White
