

CU-REGB-HC230V: analog thermostat 230v hc

Commercial information

Certificates

Applications

Heating, Cooling, Underfloor Heating

Solutions

Underfloor heating, Building installations, Industry, Utility

Technical characteristics

Regulation type on/off	✗	Measuring range minimum value	0 Degrees celsius
Regulation type modulating	✓	Measuring range maximum value	40 Degrees celsius
External sensor	✗	Measuring range	0 40 Degrees celsius
With thermal feedback	✗	Differential value	-2 2 Kelvin
Control characteristic	Other	Number of switching programmes	0
Suitable for heating	✓	Level of protection (IP value)	20
Suitable for cooling	✓	Max. contact load	2 Ampere
Adjustable differential	✗	Width	86 Millimetre
Selector switch for heating and heating with hot water	✗	Depth	86 Millimetre
Temperature readable	✗	Height	33 Millimetre
Relative humidity (RH) readable	✗		
With display	✗		
Type of clock	Other		
Overtime switch	✗		
Optimisation	✗		
With tap water circuit	✗		
Weather-dependent control system	✗		
Degree of protection (NEMA)	2		
Explosion-proof	✗
