**Product Description**

LAVA FRAME is the built-in infrared heating panel by ETHERMA, which can be installed in the ceiling and wall thanks to the installation frame included with delivery, creating a harmonious aesthetic in the room. LAVA FRAME is ideal in both drywall and concrete. Due to a special magnetic-field-free heating element, the device generates infrared radiant heat and, unlike conventional heaters, heats not only the air, but all objects and items in the room. In addition to operating as a full heating system, it is also suitable for heating zones. This not only saves heating costs, but also creates a pleasant, healthy indoor atmosphere. In addition to a large infrared radiation surface, the LAVA FRAME is remarkable with a timeless, contemporary design and fine structure. Colour: white RAL 9016, protection rating: IP 21, surface temperature: max. 120 °C, CE marking, mounting wall: horizontal and vertical, as well as in the ceiling possible, connection cable: 1 m, 3 x 1.5 mm², 230 V, TÜV, CE marking.

**ETIM characteristics**

| | | | |
|---|---|---|---|
| **Type of IR radiation** | IR-C | **Power consumption** | 500 Watt |
| **Mounting method** | Built-in | **Supply voltage** | 230\|230 Volt |
| **Mounting direction** | Horizontal/vertical | **Frequency supply voltage** | 50\|50 Hertz |
| **Degree of protection (IP)** | IP21 | **Max. surface temperature** | 120 Degrees celsius |
| **Colour** | White | **Height** | 620 Millimetre |
| **With imprint** | ✖ | **Width** | 900 Millimetre |
| **With room temperature controller** | ✖ | **Depth** | 75 Millimetre |
| **With mounting material** | ✔ | **RAL-number** | 9016 |
| **With framework** | ✔ | | |
| **Material framework** | Other | | |
| **Colour framework** | White | | |
| **Surface treatment** | Lacquered | | |
| **Surface structure front-side panel** | Smooth | | |
| **With lighting cove** | ✖ | | |
| **Dimmable** | ✖ | | |
| **Light outlet** | Direct | | |
