

PRODUCT DATASHEET

Type: ETC-300
Art. Nr.: 38204

Short description

Ceiling heating panel, white, 593x593mm, 300W, 230V

Product Description

The thermo-box is suitable as an inconspicuous heater for offices, bathrooms, schools and so on. Mounted on ceilings or on suspended ceilings, the units are excellent for full and spot heating. When installed on suspended ceilings, the radiant heater becomes part of the ceiling. Power: 300-600 W, IP 55, 230 V.

ETIM characteristics

Type of IR radiation	IR-C	Power consumption	300 Watt
Mounting method	Other	Supply voltage	230 230 Volt
Mounting direction	Horizontal/vertical	Frequency supply voltage	50 50 Hertz
Degree of protection (IP)	IP55	Max. surface temperature	100 Degrees celsius
Colour	White	Height	593 Millimetre
With imprint	✗	Width	593 Millimetre
With room temperature controller	✗	Depth	45 Millimetre
With mounting material	✓	RAL-number	9016
With framework	✗		
Material framework	Other		
Colour framework	Other		
Surface treatment	Lacquered		
Surface structure front-side panel	Smooth		
With lighting cove	✗		
Dimmable	✗		
Light outlet	Direct
