

## FICHE TECHNIQUE DU PRODUIT

Type: ET-111A  
Art. Nr.: 36758

**Brève description**

Récepteur sans fil ET-111A pour LAVA 16A

**Description du produit**

Le récepteur sans fil ET-111A peut être facilement monté sur le LAVA BASIC-DM et appris avec un ET-14A.

**Caractéristiques de l'ETIM**

|                                              |               |                      |               |
|----------------------------------------------|---------------|----------------------|---------------|
| Suitable for dimmer                          | ×             | Number of relays     | 1             |
| Suitable for pulse button                    | ×             | RAL-number (similar) | 9010          |
| Suitable for roller shutter switch           | ×             | Radio frequency      | 868 Megahertz |
| Suitable for venetian shutter switch         | ×             | Code length (Bit)    | 0             |
| Suitable for venetian-/roller shutter switch | ×             | Number of commands   | 0             |
| Suitable for switch                          | ×             |                      |               |
| In housing                                   | ✓             |                      |               |
| In tube base housing                         | ×             |                      |               |
| Printed circuit board/module                 | ×             |                      |               |
| Current supply                               | 230 V AC      |                      |               |
| Push button mode                             | ×             |                      |               |
| Switching mode                               | ✓             |                      |               |
| With manual radio transmitter                | ×             |                      |               |
| With radio coding device                     | ×             |                      |               |
| With radio controlled push button            | ×             |                      |               |
| Mounting method                              | Other         |                      |               |
| Material                                     | Plastic       |                      |               |
| Material quality                             | Thermoplastic |                      |               |
| Halogen free                                 | ✓             |                      |               |
| Surface protection                           | Untreated     |                      |               |
| Surface finishing                            | Matt          |                      |               |
| Type of fastening                            | Other         |                      |               |
| Colour                                       | White         |                      |               |
| Transparent                                  | ×             |                      |               |
| Suitable for degree of protection (IP)       | IP20          |                      |               |
| Degree of protection (NEMA)                  | Other         |                      |               |
| Modulation                                   | FM            |                      |               |
