

PRODUCT DATASHEET

Type: ET-DUO-PLUS-2000-W
Art. Nr.: 44881

**Short description**

Radiator storage heater, stone, white, 2000W, 230V

**Product Description**

The radiator storage heater ETHERMA DUO-PLUS is a modern direct heating device with three impressive heating technologies: the unique combination of convection, radiant heat and heat storage. This not only promises enhanced performance, it also optimizes operating costs. The powerful heater saves space due to its compact design, while generating pleasant radiant heat, and thanks to the integrated electric controller, the desired room temperature can be easily selected. It is especially suitable for large rooms, as efficient transition heating or as an ideal replacement for outdated overnight storage heaters. The ETHERMA DUO PLUS has an elegant, state-of-the-art design and it reacts quickly when heating. If the controller is set to OFF mode, the device's anti-frost mode is active. In the event of a sudden drop in temperature due to an open window, for example, the device automatically turns off. In addition, the ETHERMA DUO PLUS can be adapted to individual needs via daily and 7-day programs. The heating element can be mounted on the wall horizontally and it is connected via a cable and plug. Surface: 12 mm coated silicon brick; Protection rating: IP 24; Mounting depth: 105 mm; Control range: 15-28 °C; Anti-frost function: 7 °C; Surface temperature: max. 85 °C; Connecting cable: 1m including plug; 230V, System design: CE compliant

ETIM characteristics

Model	Standard	Heating capacity	2000 Watt
Mounting method	Wall model	Supply voltage	230 230 Volt
Material front	Other	Frequency supply voltage	50 50 Hertz
Grid model	Fins	Length connection cord	1 Metre
Material heating element	Other	Number of switch positions	1
Air exhaust	Top	Temperature adjustment	15 28 Degrees celsius
With fan	✗	Differential gap, temperature	0.1 Degrees celsius
Electrical connection	Connection cable with plug	Width	1000 Millimetre
Position control panel	Top	Height	500 Millimetre
Suitable for wireless remote control	✗	Depth	105 Millimetre
With remote control	✗	Weight	22 Kilogram
Power control	Electronic		
Colour	White		
Degree of protection (IP)	IP24		
Protection class	II		
With overheating protection	✓		
Programmable	✓		
Frost protection circuit	✓		
Digital indication	✓		
With presence indicator	✗		
Suitable for bus connection	✗		
With time switch clock	✓		
Adaptive (self-learning)	✗

PRODUCT DATASHEET

Consumption indication	✗
Open window detection	✓
Compatible with Apple HomeKit	✗
Compatible with Google Assistant	✗
Operation by app	✗
Compatible with Amazon Alexa	✗
IFTTT support available	✗
Number of supported pilot wire commands	None
