ETHERMA°
EFFICIENT. ELECTRIC. HEATING.

PRODUCT DATASHEET

Type: BHK-63/168
Art. Nr.: 40544

0 912006 139407

Short description
Electric bathroom heater, white, 1000W, 230V

Product Description
Bathroom heater BHK is designed for heating bathrooms and towels. The radiator has an attractive design, without visible welding, and it is frost-proof up to -20 °C and filled with heat transfer fluid. The thermostat regulates the surface of the radiator in 2 stages (45 °C and 60 °C). The device has an on/off switch with LED indicator and a 2-hour timer function. The BHK-TH radio control is optionally available for weekly and daily programs, as well as temperature drop detection - making it compliant with eco-design guidelines. Device depth: 85 mm, protection rating: IP X5 protection rating I, colour: traffic white RAL 9016, plug connection cable: 1.5 m right, CE marking.

ETIM characteristics

Radiator design	Straight	**Number of tubes**	32
Type of collector	Other	**Max. input power electric heating**	1000 Watt
With console	✖	**Max. input power fans**	0 Watt
Swivelling	✖	**Supply voltage**	230|230 Volt
Shape of radiation tube	Rectangular	**Frequency supply voltage**	50|50 Hertz
Material	Steel	**Width**	630 Millimetre
With fan	✖	**Height**	1680 Millimetre
Position control panel	Other	**Depth**	85 Millimetre
Suitable for wireless remote control	✔	**Weight**	20 Kilogram
With remote control	✖		
Power control	Electronic		
With time switch clock	✖		
Colour	White		
Degree of gloss	Glossy		
Degree of protection (IP)	IPX4		
Protection class	I		
Digital indication	✖		
Suitable for bus connection	✖		
Programmable	✖		
Adaptive (self-learning)	✖		
Consumption indication	✖		
Operation by app	✖		
With mounting material	✔		
Type approval according to BBR/EKS	✖
